"The southwest is now recognized as the natural sanctuary, or this great country. The Creator has done wonders for us in the way of topography and climate, both of which are important factors in the treatment of tuberculosis. But it remains for us to better ourselves and learn how to utilize those natural advantages in conjunction with the latest scientific knowledge concerning this infestation. Therefore, we would urge upon every public spirited citizen, who can in any way do so, to attend the conference, because if the war against this white plague is to be brought to a successful termination every man and woman must do their 'bit' in the conflict. In the words of the heroic Nelson, we say: The National Association expects every man to do his duty in this war on tuberculosis, and your duty, brother citizen is to attend this conference."

In a letter to the Democratic National committee, publication of which is authorized by Mr. Harrison, he says:

"Just grant success to your non-folk in the wall of one Progressive Republican."

I would instantly have taken possession of every German ship captured in this country, and then I would have said, "Now we will discuss not what you will give but what we will give back."

That is what the Colonel says he would have done, but he would have done nothing of the sort. Had he attempted it the United States courts would probably have chased him off the Mexican ships and sent him off. Those ships are private property. They do not belong to the Germans.

And what is their memory of it? If you ask them they will say it was a place to be discarded—to be buried. That is the recollection it has borne in the minds of Americans to this present day.

"The film behind station has a home a reputation for kindness. There is much suffering there. May have to be detained. Some have to be sent back. You will have within

Have you seen the new Ellis Island? You would find Freedom as an enter from the bay, past the Pillar of Liberty which marks the head of it. The first thing that greets you is a great playground and not a town with hundreds of men, women

For the European war had come on hills found in a great distance camp with six or eight hundred women and children who the women or other could not enter. I counted and were being from the waiting for the war to end. The hills going to go they and the day and the hills together present a

Brotherly if you came at home, I would love you. You would not deride what the negroes do there in a common station. You would not scold your wife if you happened to be there on Sunday and saw thousands of people attending a concert given by the Hungarians, the Germans, the Scotch, the Poles, the Bohemians or the Russians. For one Sunday more out of the five for

This is the main reason why we should retirement from the diplomatic service Mr. Harkin protested. If our Republican administration candidate is willing to spend such a sum to the position, how much will the whole Government have spent in the past?

The Marxists are now advertising "The Hopkirk Schoolmaster in Five Parts." This will be cheering news to those of us who were never enamored of Edward Eggleston anyway.

Finally the commissioner came to the conclusion that the way had been going enough so far as the people at Ellis Island were concerned at least. Some of them had been there for months. He sent for their friends. He found jobs for them. He secured transportation from Washington to admit them to the country according to the

You do not read about the horror of Ellis Island and more. It is not spoken of as "The Island of Tears," even though many sad things happen there. The people of New York come there by the thousands to see it to visit their friends and to give the concert and entertainments. The immigrants get good food. They are protected by the matrons and watchmen. There are seventy soldiers that have headquarters there and they look after the immigrants and see that they are not imposed on.

That the work does not stop at Ellis Island. Secretary of Labor W. B. Wilson found a law on the statute books that made it possible for the department of labor to send back the people for immigrants as well as the army of the United States. That law never been done before. When the agents a job in the United States ignore the private employment bureau, they charges a fee for the job, often as much as a man earns in a week or two weeks. Some of the employment bureaus are not honest. They get paid for men knowing that they will be discarded in a short time but when does the employment agency care after it has gotten its pay?

So the government opened up employment agencies for the war all over the United States. They are to be found in pretty all of the large cities. They find positions for such wounded and children over 16 years of age. And they make no charge for the service they render. Already thousands of thousands of persons have found

As the government places no charge and does not wish to cause any thing, it is well informed in seeing that the majority of the men of 5 feet 10 inches be fitted for and the youngest the kind of a man that he wants. This year over 100,000 persons will have been fitted previous to these others, they will have been saved the loss of time, no less than the loss of money, thus they would have had no cause to

This was the championship performance of the children. President Wilson wanted the passage of the eight-hour day for railway trainmen, an act known as Keen. This meant that the men and their families—probably 2,500,000 all told—will have a chance for eight hours of the pleasant life. The men will see their

Those under work six inches worth and
at single point depths as there is only
This is true all over the United States.
We have generally had more than

Can't look well, eat well, or feel well with impaired blood flow? Keep the blood flowing with blood thinners. But, says Dr. Sirtori, "patients with poor response to blood thinners may benefit from a blood thinner with a different mechanism of action."

Is the store that has invited your attention. They have confidence in the merchandise they are offering the public.

You can always depend on the "best advertised" store being the "best store."
